ABOUT THE PRODUCT

OTHERS CLAIM WE PROVE IN REALITY **SOLARIX 24X7 SAVES ELECTRICITY**

EXCEPT TALKING IT DOES EVERYTHING ON ITS OWN

1. **FIRST TIME IN INDIA GRID – BY PASS TECHNOLOGY** optimizes solar usage over Grid and reduces your power bill.
2. **REMOTE CONTROL** You can start and shut down through remote or even through your smart phone.
3. **5 to 10 YEARS BATTERY LIFE** with auto sensing soft ware.
4. **MPPT CHARGE CONTROLLER** maximum power conversion.
5. **PURE SINE WAVE** protects your all-sensitive gadgets.
6. **LONGER LIFE** smart inverter is designed for 10 years service life.
7. **ALL RUNNING PARAMETERS TO YOUR FINGER TIPS** through multi color display shows solar usage, battery states, connected load, mains voltage & fault indication.

Full Ampere, More Power: Solarix 24X7 modules are made with high efficiency multi crystalline cells, designed to give you up to 5W extra power. You get full ampere and extra power. Solarix 24X7 modules generate power even when the sun is not shining fullest.

Twenty-Five Years Life: Solarix 24X7 have maximum protection against harsh environment conditions to last 25 years of trouble free power generation. All the material used in Solarix 24X7 Modules are of the highest standard international quality. IP 65 certified Junction Box, Robust anodized Aluminum Frames, Highly transparent and strong EVA, Anti reflective tempered glass and TUV certification means it meets all the stringent international standards.

BATTERA KA BAAP

BATTERIES THAT ARE MADE TO STORE THE SUN AND RELEASE IT WHEN NEEDED.

Solarix 24 x 7's entire system performs best when supported by batteries that are specifically designed for them. Solarix 24 x 7 Batteries have a unique deep cycle high-density plate technology. It provides superior reliability and longer life. Its low impedance design provides excellent charge acceptance capability. Solarix 24 x 7 Batteries have no current limit control voltage charging feature to give a longer life. Shockproof high impact reinforced case restrains bulging. Lead alloy corrosion free connections provide maximum conductivity.
